

NexGen's **Cage Cash+ Solution** is designed to streamline cash handling in casino cages, empowering cashiers to manage transactions faster and more efficiently. From handling Cash Advances to Check Cashing, Chips, Jackpots, and more, Cage Cash+ is the ultimate tool for automating financial operations and enhancing customer service in your casino. Eliminates the need to have cash in the drawer.

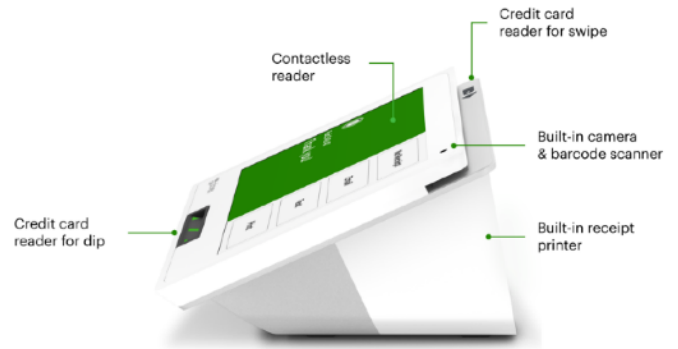

Simplified Cash Management for Every Transaction:

- **Comprehensive Transaction Handling:**

Cage Cash+ seamlessly manages a variety of transactions, including:

- **Cash Advances**
- **Check Cashing**
- **Chips**
- **Jackpots**
- **Redeem Tickets**
- **Bill Exchanges**
- **Employee Banks**
- **Hand Pays**

Your cashiers can quickly complete these transactions, reducing wait times and enhancing the guest experience.

Powerful Reporting & Inventory Tracking:

- **Cloud Based Real-Time Reporting:**

Access detailed and summary reports for each cashier, allowing you to see a complete transaction history for your cage operations. Reports are available for viewing as far back as day one, giving you unparalleled insight into your financial activities.

- **Inventory Management:**

Track and manage inventory for each cashier station, ensuring that you always know the status of cash reserves and can optimize cash flow across your casino.

Compliance Made Easy:

- **Integrated Title/31 Compliance:**

Cage Cash+ integrates seamlessly with Title/31 systems, helping you meet regulatory requirements with ease. Track Suspicious Activity Reports (SAR) and Customer Transaction Reports (CTR) while maintaining PCI compliance, ensuring that your casino is always operating within legal guidelines.

User-Friendly Technology:

- **Dedicated Cash Dispensing Device:**

Our solution includes a dedicated cash dispenser with a streamlined interface designed for ease of use. Your cashiers can easily manage cassettes, monitor device status, and track inventory with just a few clicks.

- **Fast, Efficient Cash Dispensing:**

Cage Cash+ features a simplified workflow that allows cashiers to quickly complete transactions and dispense cash. This efficient process minimizes errors and speeds up service, allowing your team to focus on providing exceptional guest experiences.
