

Payout

Efficient, Feature-Rich, and Built for Fast Payouts

NexGen's **Jackpot Processing Solution** simplifies and speeds up the entire process of jackpot payout, ensuring that both casino staff and guests have a smooth and hassle-free experience. From linking players to jackpots to dispensing cash, our solution is packed with features designed to make jackpot management faster, more accurate, and fully compliant.

Speed and Efficiency:

- **5-Minute Payout:** From the moment the jackpot is selected to the moment it's paid out, the entire process can be completed in as little as **5 minutes**, reducing wait times and increasing guest satisfaction.
- **Streamlined Process:** Our intuitive interface and logical step-by-step flow make it easy for casino staff to complete each transaction without errors or delays.

Real-Time Jackpot Management:

Easily access and search through available jackpots in real time, reducing delays and ensuring that every jackpot is accounted for.

Process Any Jackpot: Whether large or small, our system lets you process any jackpot quickly with a few clicks, ensuring fast payouts.

Seamless Player Linking:

Player Club Integration: Link the jackpot to the player seamlessly by entering their **Club Number** or searching for their profile.

Player Information Management: Access and update player data, including identification, address, Social Security Number (SSN), and W-9 compliance in one interface.

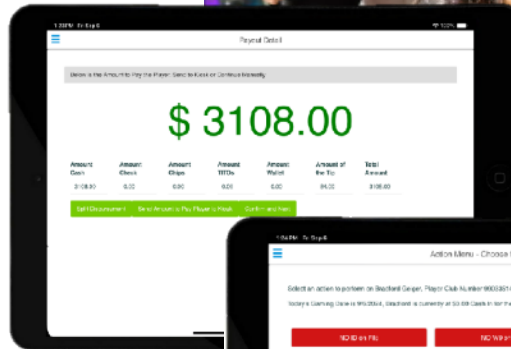

VIP Management: Support for player profiles, including VIP status, ensuring high-level service for important guests.

Jackpot Verification and Photo Capture:

Detailed Jackpot Confirmation: Verify jackpot information such as **amount**, **machine number**, **denomination**, **coins played**, and **winning combination** before proceeding to payout.

Photo Capture: Activate the built-in camera to capture a **photo** of the winning moment for verification and records.

Secure Signatures for Verification:

Employee Verification: The system captures an **employee signature** to validate that the payout is legitimate and verified by casino staff. **Player Signature:** The player signs digitally to confirm their jackpot win, ensuring a secure and documented payout process.

Compliance and Reporting:

- **W-9 Compliance:** The system automatically ensures that the player's **W-9 form** is completed, along with any necessary **ID checks** and **Social Security Number (SSN)** validation, ensuring full regulatory compliance.
 - **Withholding Management:** Confirm the **withholding amounts** the player wishes to apply, ensuring accurate tax reporting and compliance.
 - **Automated W-2G Forms:** Generate and either **print** or **email** the **W-2G tax form** directly to the player, streamlining documentation.
-

Kiosk-Based Payouts:

- **Send to Kiosk:** Once confirmed, jackpots can be sent directly to the kiosk for **instant payout**.
 - **Admin Card Access:** The **Jackpot Attendant** uses their **Admin Card** and **PIN** to securely access the jackpot payout options at the kiosk.
 - **Fast Bill Dispensing:** The kiosk dispenses the jackpot in **cash bills** quickly, followed by an **issue ticket** for any remaining balance.
 - **Receipt Printing:** A detailed **receipt** is printed to complete the transaction, providing a full record for both the casino and the player.
-

Additional Benefits of NexGen's Jackpot Solution:

- **Full Transaction History:** Track all jackpot transactions, including details on who processed the jackpot, time, amount, and payouts. These reports are available for auditing, security, and future reference.
- **Compliance with Regulations:** Integrated compliance features, such as **W-9**, **SSN**, and **Title 31 reporting**, help casinos stay up to date with regulatory requirements, while still providing fast service.
- **Customizable Features:** Tailor the system to meet your casino's specific needs, from withholding rates to jackpot limits, ensuring you have full control over your operations.
- **Integration with Other NexGen Services:** The Jackpot Solution integrates seamlessly with other **NexGen** services, including Cash Advance, Check Cashing, and Casino Cage operations, for a unified and cohesive guest experience.
